

# CIVIL JUSTICE RESEARCH INITIATIVE

## **BERKELEY BOOSTS WEBINAR:**

### **Attacks on the Courts**

**Friday, January 14th at 1:00 PM PDT**

This two-hour Zoom symposium will focus on some of the ethical issues raised by increased attacks on the independence and legitimacy of the courts. Recently, these attacks have come most noticeably from the political branches, but are also increasingly seen from practitioners and at times from judges themselves.

Our symposium will engage with practitioners, scholars, and judges to better understand the issues involved and their implications for the legal community. MCLE Offered.

This webinar is part of an ongoing series of programs focused on Civil Legal Issues hosted by The Civil Justice Research Initiative (CJRI) — a think tank housed at Berkeley Law.
